# NCR schools win top honours at 'F1 in Schools India' challenge

Kapil Datta

htreporters@hindustantimes.com

**Noida:** Scottish High International School, Gurugram, Amity International School, Saket and The British School, New Delhi emerged as the winning teams in the grand finale of 'F1 in Schools India' challenge. The challenge which concluded last week was organised at the Amity University in Sector 125.

The winning teams will now represent India at the world finals in November at Abu Dhabi where teams from 49 countries will compete.

Some of the F1 model blocks made by the students.

HT

The challenge was conceived to promote Formula 1 races among students. It requires groups of three to six students to design and manufacture a minia-

ture car out of the official Formula 1 model block using design tools supplied by the F1 Group.

Yashraj Singh, chief for F1 in India, said, "We are thrilled to see so much talent in these teenagers. It takes a year of preparation to compete in the event. When the India chapter of F1 in schools was formed, we had not perceived such an overwhelming response from across the country."

Amita Chauhan, chairperson, Amity International and Global Schools said, "Such platforms inculcate a sense of responsibility in our students and this kind of stimulation is very important."

## F1 in Schools Challenge gets India winners

AGE CORRESPONDENT

Three schools will represent India in the world finale of the F1 in Schools challenge, an initiative in which students come up with miniature versions of racing cars and make them run on a 24-metre track.

Each team had three to six members working on the best possible design for the minimum friction of the car and setting up their pit-booth.

The Formula One kits provided to the students are directed from the Formula One Headquarters in UK, the organisers said in a press release.

Orion Racing, Scottish High International School (Gurgaon 2), Matadors, Amity International School (Saket), and Stallion, The British School (New Delhi) were the winning schools from the Indian leg.

The teams will represent India at the World Finals in November this year where teams from 49 countries will compete for the title, slated to take place at Abu Dhabi.

## भारतीय छात्रों ने बनाये फार्मूला-1 कार के मॉडल

**नई दिल्ली ■ वार्ता**

भारत में ग्रेटर नोएडा में फार्मूला-1 का बुद्ध इंटरनेशनल सर्किट बना हुआ है लेकिन इस सर्किट पर तीन आयोजनों के बाद पिछले कई वर्षों से किसी भी फार्मूला-1 रेस का आयोजन नहीं हुआ है। इसके बावजूद एफ-1 कारों को लेकर भारतीय छात्रों में जबरदस्त उत्साह है और उन्होंने इन कारों के मॉडल तैयार किये हैं।

9 से 19 साल के छात्रों ने दुनिया के सबसे बड़े स्टैम चेलेंज एफ-1 इन स्कूल्स इंडिया के दूसरे सत्र में हिस्सा

लिया जिसका ग्रेड फिनारे नोएडा की एमिटी यूनिवर्सिटी में आयोजित हुआ। गुडगांव के स्कोटिश हाई इंटरनेशनल स्कूल की ओरियन रेसिंग इसमें विजेता बनी। साकेत ने एमिटी इंटरनेशनल

स्कूल के मेटाडोर्स को दूसरा और राजधानी के द ब्रिटिश स्कूल के स्टालियन को तीसरा स्थान मिला। इन विजेता स्कूलों को अब नवंबर 2019 में अबुधाबी में आयोजित वर्ल्ड फाइनल्स में भारत का प्रतिनिधित्व करने का मौका मिलेगा जहां 49 देशों की टीमों हिस्सा लेंगी।

एफ-1 स्कूल्स इंडिया के इन कंट्री चीफ यशराज सिंह ने इन टीमों को सम्मानित करते हुये कहा, "जब हमने एफ-1 इन स्कूल्स के इंडिया चैप्टर की शुरुआत की थी तब हमें अंदाजा नहीं

था कि भारत में इतने प्रतिभाशाली छात्र दिखाई देंगे। इन किशोरों ने कार डिजाइनिंग से लेकर ब्रांड एसोसिएशन और मार्केटिंग तक अपनी अनुभूति प्रतिभा का परिचय दिया है। इसके लिये छात्रों ने एक साल तक तैयारी की थी।

मुंबई, बंगलुरु और दिल्ली एनसीआर में क्षेत्रीय राउंड के बाद फाइनल राउंड हुआ जिसमें 80 टीमों ने क्वालीफाई किया। छात्रों के सामने फार्मूला 1 रेसिंग कार बनाने और इसे 24 मीटर के रेस ट्रैक पर दौड़ाने की चुनौती थी।

## These National Champions Of 'F1 in Schools' Will Represent India In Finals Alongside Formula 1 Abu Dhabi Grand Prix

[https://www.indiatimes.com/sports/these-national-champions-of-f1-in-school-will-represent-india-in-world-finals-alongside-formula-1-abu-dhabi-grand-prix-2019\\_-366515.html](https://www.indiatimes.com/sports/these-national-champions-of-f1-in-school-will-represent-india-in-world-finals-alongside-formula-1-abu-dhabi-grand-prix-2019_-366515.html)

When you blend Formula One with an educational curriculum of Science, Technology, Engineering and Mathematics (STEM), you get 'F1 in Schools', a global educational challenge for students between 9 to 19 years of age from all over the world.

The national finals of F1 in Schools India, Season 2, culminated in great enthusiasm for the three winning teams on April 27, at Amity University, Noida.

A total of whopping 80 teams competed in the finals making it a hard-earned victory for the winners. The winning teams will represent India in world finals that will coincide with Formula 1 Abu Dhabi Grand Prix 2019.

## F1 in Schools challenge gets India winners

[https://www.business-standard.com/article/pti-stories/f1-in-schools-challenge-gets-india-winners-119042900361\\_1.html](https://www.business-standard.com/article/pti-stories/f1-in-schools-challenge-gets-india-winners-119042900361_1.html)

Three schools will represent India in the world finale of the F1 in Schools challenge, an initiative in which students come up with miniature versions of racing cars and make them run on a 24-metre track.

Each team had 3-6 members working on the best possible design for the minimum friction of the car and setting up their pit-booth. The F1 kits provided to the students are directed from the Formula One Headquarters in UK, the organisers said in a press release.

Orion Racing, Scottish High International School (Gurgaon 2), Matadors, Amity International School (Saket), and Stallion, The British School (New Delhi) were the winning schools from the Indian leg.

The teams will representing India at the World Finals in November this year where teams from 49 countries will compete for the title, slated to take place at Abu Dhabi.

## Team Orion Racing clinches the F1 in Schools India National Finals

<https://news.careers360.com/team-orion-racing-clinches-f1-in-schools-india-national-finals>

Team Orion Racing from Scottish High International School, Gurgaon, emerged victorious at the F1 in Schools India finals held at Amity University, Noida. The second and third positions were secured by team Matadors, Amity International School, Saket and team Stallion, British School, Gurgaon respectively. The three teams will represent India at the World Finals in November 2019 at Abu Dhabi which will be contested by teams from 49 countries. This was the second season of the F1 in Schools India finals which has become the largest Science Technology Engineering Mathematics (STEM) challenge for students in the country. It witnessed the participation of 80 teams, consisting of 3-6 members each from schools in Bangalore, Delhi NCR, and Mumbai that qualified the regional rounds. Spanning an age range of 9 to 19, F1 in Schools aims to create a learning environment for the students to develop an informed view on careers in engineering, science, marketing and Formula One. Through the competition, the students learn to make a business plan, manage budgets, and raise sponsorships to fund their research, travel and accommodation. The platform encourages students to design miniature air-powered F1 cars using Computer Numerical Control (CNC) machines and Computer Aided Design (CAD) tools. These cars are then pitted against each other in a 24-metre track to determine the fastest one. The competition considers all-round performance among other aspects to judge the winners. The winners were keenly looking forward to competing with peers from across the globe. This is our first time in this competition and we can't wait for the World Finals to begin. We hope to prove ourselves and prove that our country has the potential to win it, said Aryan, Team Manager, Orion Racing. The In-Country chief for F1 Schools in India Yashraj Singh felicitated the winners at the event. The objective of the event is to encourage skill-based learning and to create a culture of Research and development among the students, said Singh.

Three schools will represent India in the world finale of the F1 in Schools challenge, an initiative in which students come up with miniature versions of racing cars and make them run on a 24-metre track.

Each team had 3-6 members working on the best possible design for the minimum friction of the car and setting up their pit-booth. The F1 kits provided to the students are directed from the Formula One Headquarters in UK, the organisers said in a press release.

Orion Racing, Scottish High International School (Gurgaon 2), Matadors, Amity International School (Saket), and Stallion, The British School (New Delhi) were the winning schools from the Indian leg.

The teams will representing India at the World Finals in November this year where teams from 49 countries will compete for the title, slated to take place at Abu Dhabi. PM PM

## Second edition of 'F1 in Schools India' concludes

<https://sportzwiki.com/f1-2/second-edition-of-f1-in-schools-india-concludes>

The second season of F1 in Schools India, Worlds largest STEM challenge for students in the 9-19 years age group, came to end with finale at Amity University campus, Noida, on Saturday.

Orion Racing from Scottish High International School, Gurgaon, won the first place, followed by the Matadors, Amity International School, Saket, and the Stallion, The British School, New Delhi, at the third place.

The winning teams would be representing India at the World Finals at Abu Dhabi in November where teams from 49 countries will compete for the title.

To felicitate the winning teams, Country Chief for F1 in Schools India Yashraj Sing and its chairperson, Dr. Amita Chauhan of Amity International & Global Schools, were present at the occassion.

Speaking after conclusion of the event, Yashraj said: When the India chapter of F1 in Schools was formed, we had not perceived such an overwhelming response and participation from all over India. We are thrilled to see so much latent talent in these teenagers. It was an adrenalin rush to see participants learning from this unique competition and innovating themselves to be ready for future challenges. Before the final, F1 in Schools had regional round, which included schools from Mumbai, Bangalore and Delhi NCR. 80 teams qualified for the finale.

The initiative throws a challenge at students to come up with a car out (miniature of an actual Formula One racing car) and make it race on a 24 metres race track.
